TECHNICAL SPECIFICATIONS

Colour	black/green
--------	-------------

Material	technopolymer
----------	---------------

Pump body	technopolymer
-----------	---------------

Material impeller 1	technopolymer
---------------------	---------------

Max. head	80 m
-----------	------

Connection	female thread
------------	---------------

Max. temperature	50 °C
------------------	-------

Minimum medium temperature 0 °C
(continuous)

Height	613 mm
--------	--------

Max flow rate	17.4 m ³ /h
---------------	------------------------

Maximum ambient temperature	55 °C
-----------------------------	-------

Pressure	12 bar

PRODUCT INFORMATION

Includes a self-priming multi-stage pump, management inverter electronics, pressure and flow sensors, adjustable high resolution LCD display with 2 litre built-in expansion vessel, and

cartridge check valve.

- Pressure set point adjustable from 1 to 12 bar
- Max. inlet pressure: 5 bar
- Installation: fixed vertical position, a 4 pump modular system is available with the additional kit to connect the ESYDOCKS.
- Docking station not included and is required for operation.
