

**Solar heater polycarbonate
32/38 mm hose tail 1bar black
0,55m type Pyramid (7018973)**

TECHNICAL SPECIFICATIONS

Colour	black
Type	Pyramid
Material	polycarbonate
Connection	hose tail
Length	0,55 m
Width	0.55 m
Pressure	1 bar
Volume max.	7.5 m ³
Size	32/38 mm

PRODUCT INFORMATION

Compact solar collector with relatively high capacity. Works in conjunction with filter pump. The heating capacity depends on the weather conditions. One solar collector blanket is suitable for swimming pools with volumes of up to 5,000 litres of water. Collectors can be linked in series for greater heating capacity.

Supplied complete with set of connection hoses.
