----------	----------------------

Capacity 1.5bar	0 - 65 l/h
-----------------	------------

Capacity 1bar	0 - 52 l/h
---------------	------------

Capacity 2bar	0 - 74 l/h
---------------	------------

Connection	male thread
------------	-------------

Sector adj. range	360°
-------------------	------

Opening pressure	1 bar
------------------	-------

PRODUCT INFORMATION

Features: - Rotation of the Maxima™ 360° cap allows simultaneous adjustment of flow rate and diameter of throw. The ratchet clip action between the cap and the base allows the vortex pattern to be increased or decreased until final shut-off. - Four base options available, 4.5 mm Barb, 10-32 UNF Male Thread, 1/2" NPT Female Thread and 150 mm Spike. - Vortex action distributes water evenly over the irrigated surface. Applications Ideal for spot watering of plants in small and large pots or larger areas including garden beds and landscapes
