

Nature Works Glass filter media type Grade 1 0.6 - 1.2 mm 20kg (7043155)

 NatureWorks®

TECHNICAL SPECIFICATIONS

Package Quantity	20kg
Type	Grade 1
Size	0,6 - 1,2 mm

PRODUCT INFORMATION

The Nature Works glass filter media is the latest generation of filter media on the market using exclusively virgin recycled glass, ideally designed for water filtration. It offers an extremely hygienic and Bio-secure level of filtration and maximizes filtration performance and efficiency.

Features:

- Virgin recycled glass
- NSF/ANSI/CAN 61 certified
- 99,64% filtration performance
- 300% less backwashing compared with any other glass filter media
- Absence of biofilm
- High durability
- Minimum energy, chemical and water consumption
