

Norsup Water treatment kit pH + hydrolysis type NorsupGo (7044064)

NORSUP

TECHNICAL SPECIFICATIONS

Type

NorsupGo

PRODUCT INFORMATION

The NorsupGo hydrolysis offers pure, healthy, and crystal-clear pool water without the need for harsh chemicals. This automatic hydrolysis system continuously regulates the production of disinfecting chlorine through water electrolysis, keeping your water perfectly balanced. It ensures the right chlorine level at all times, no unpleasant chlorine smell, no red eyes, and no overdosing.

Features:

- Suitable for pools up to 120m³ and whirlpools
- Hydrolysis-controlled chlorine production
- 100% anti-overdose thanks to advanced safety features
- Digital electrode quality control
- Shock function with automatic calculation
- Adjustable dosing alarms for pH and RX
- Compatible with external flow sensor and level signal
- Optional temperature measurement
- Complete kit including probes, flow switch, 5-in-1 probe holder, and other installation accessories
