

Air blower 2" 400VAC type 050 single impeller 2.2kW (7042254)

TECHNICAL SPECIFICATIONS

Voltage	400VAC
Type	050 single impeller
Capacity	210 m ³ /h
Size	2"
Power	2.2 kW

PRODUCT INFORMATION

The side channel blower system for spa and professional swimming pool applications delivers high-quality and powerful performance. It is an ideal choice for applications that require large volumes of clean, dry air with low pressures and voids. It offers easy installation, reduced operating noise and low energy consumption.

Features:

- Designed to work in continuous service
- Easy vertical or horizontal installation
- Equipped with quiet-running induction motors
- IP54 protection
- Robust and reliable
- No contamination of gasses or conveyed air
