FLOTIDE

TECHNICAL SPECIFICATIONS

Package Quantity	20kg
Type	Grade 3
Size	3,0 - 6,0 mm

PRODUCT INFORMATION

We offer glass filter media made from recycled glass bottles. The glass is stripped clean of all contaminants including paper, cork & metal using an intensive heat treatment, UV technology, magnetic separators and gravity separators. This intensive treatment results in more than 99.6% pure glass!

Feature:

- Recycled glass
- Less usage of raw materials and CO2
- Result in more than 99.6 % pure glass
