

DAB Submersible pump technopolymer 1" female thread 4,8A 230VAC black type Eurocover (7033860)

TECHNICAL SPECIFICATIONS

Colour	black
Type	Eurocover
Material	technopolymer
Output Power	0,3 HP
Pump body	technopolymer
Material impeller 1	technopolymer
Connection	female thread
Float	included
Voltage	230VAC
Max. temperature	35 °C
Minimum medium temperature (continuous)	0 °C
Power	0.22 kW
MWC	6,5
Ampere	4,8 A
Max flow rate	6 m ³ /h
Press	1 "

Size 1"

BEP Capacity 4.25

BEP Head 19

PORlh 22.8

PORhh 13.3

PORlq 2.975

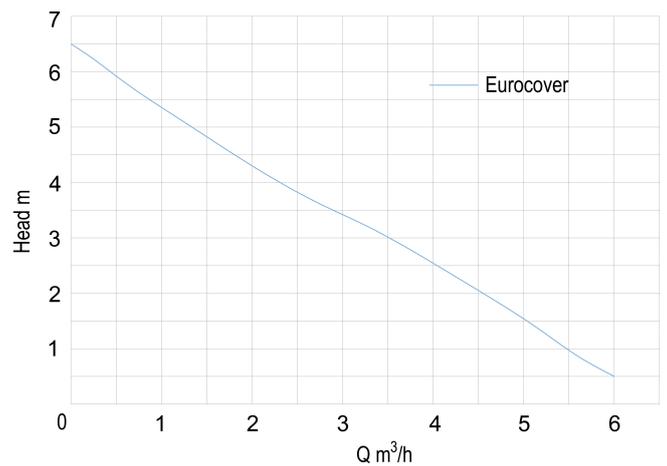

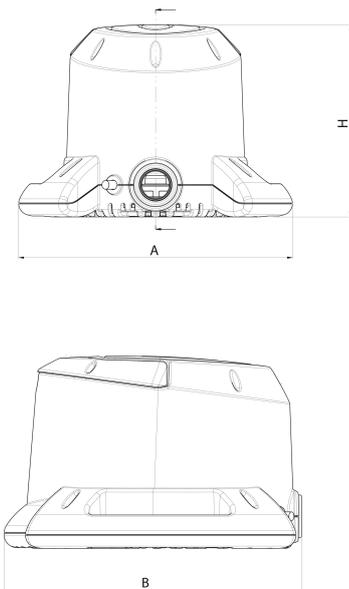

PORhq 5.1

DIMENSIONS

A 280.2 mm

B 304.4 mm

H 198.1 mm

PRODUCT INFORMATION

Fully automatic electric submersible pump with wide support base for greater stability. This also gives the option of running the pump in positions that are not perpendicular to the ground. Suitable for use above tarpaulins and (pool) covers to pump out rainwater, thus preventing the cover from breaking due to the weight of the collected water. If necessary, the Eurocover can serve as an emergency submersible pump for emptying and/or drainage in case of emergency. Electric pump made of sturdy thermoplastic material. Motor, shaft and screws made of stainless steel. Triple seal with intermediate rings with oil pre-chamber. Built-in float for automatic operation. The float is installed in separate housing that is easily accessible for maintenance/cleaning.
